

### **I-LINE STANDARD SOFT CLOSE SEAT & COVER (FOR 60635 & 60637)**

I-LINE soft close seat and cover. A high quality toilet seat with a minimalist quick-release button located in the centre for the seat fixings; a quick press of the button and one swift action is all it takes to have the seat off for a good clean.

The square shape of the I-LINE WC is deceptively comfortable. The sloping contour on the sides of the seat gives the user a comfy experience. The seat has no less than 4 buffers ensuring a balanced spread of weight, and the soft closing mechanism has been tested to ensure a long untroubled life.

Compact by design to suit the toilet, the wrap-over cover neatly conceals the seat beneath.
